# WELCOME TO ONE EARTH FILM FESTIVAL 2016!

As the annual One Earth Film Festival reaches its milestone fifth year, we are pleased to bring more inspiring environmental films to more Chicagoland communities than ever before. With the help of many generous sponsors and donors, and our steadfast, mostly volunteer team, we are excited to share with you the opportunity — not just to watch these thought-provoking films — but to participate in creative, solution-focused, engaging programs meant to help move us all toward action.

The active expression of our new tagline — “Moving Planet, Moving People” —encapsulates our mission to highlight *the power of people* in creating a better, more sustainable world. It is the power of people that Crystal Lameman, member of the Canadian Beaver Lake Cree Nation invokes when, in Avi Lewis’ film “This Changes Everything,” she says, “If you breathe air, if you drink water, this is about you.”

Indeed, it is about every one of us. We hope you will see at this year’s Festival the intention to expand the “us” — from maintaining a strong focus on youth (with a 150 percent increase in submissions to our Young Filmmakers Contest), to hosting events with partners at first-time venues in Pilsen, Englewood, Wilmette, Southshore, Lincoln Square, Woodlawn, Bronzville, Grayslake, Lake Forest, and more.

Our planet is changing, and so too is the awareness and the will of its people. We are encouraged by the expressions of increased ambition from more than 190 countries, reflected in the Paris Climate Agreement. We find hope in President Obama’s rejection of the Keystone XL Pipeline proposal. We see opportunity in the National Restaurant Association’s naming the “local and ethical sourcing” of ingredients and food waste reduction as top trends for 2016, and in Forbes’ noting that sustainability and corporate responsibility are bringing “more widespread, integrated adoption among our world’s most powerful companies.”

At this juncture, One Earth Film Festival’s 5th change-making year, we see opportunity. We see the possibility for regeneration. And we see clearly the power of people. Thank you for being with us, for being open to learning, and open to acting. For being part of our mission for Moving Planet, Moving People.
