

**YOUNG
FILMMAKERS
ONLINE ACADEMY**
from **ONE EARTH** FILM FESTIVAL

Young Filmmakers Online Academy Trailer

Everywhere you look, nature is in action! From the depths of oceans to the heights of mountain tops. Tiny insects to large mammals. The greenest of forests to the driest of deserts. The environment is also how we humans behave with our surroundings. The things we make. The food we eat. The energy we use and the ways we travel. You don't have to wander far to experience nature. But wherever you see nature, you also see problems that humans cause. People cause issues like climate change, pollution, and habitat destruction. Helping our environment is humankind's most important work. And one way we can support the planet is by telling its stories.

Welcome to the Young Filmmakers Online Academy from One Earth Film Festival! We are here to connect your creativity with solutions to environmental challenges. We will show you the ways to write, record, and share films about people, habitats, and climate.

YOUNG FILMMAKERS ONLINE ACADEMY

from **ONE EARTH** FILM FESTIVAL

This academy is a guide to make your imagination come to life on the screen. Once completed, you'll have a theatre-ready film. And you can enter this film to the One Earth Young Filmmakers Contest to win awards, earn money, support environmental causes, and show your movie in theaters! When you make movies, you inspire viewers and make change possible.

So if you're ready to help the planet and make a movie, let's begin.
Lights, Camera, Action!
